

Turning Inspiration Into Impact

Our Mission

The Foundation for MetroWest improves the quality of life in 30+ MetroWest communities by providing financial and educational resources to nonprofit organizations, collecting and sharing essential data about our region to inform decisions, and partnering with donors to help guide and align their giving with the areas of greatest need in the community.

What We Do

Our Impact

We understand the unique needs of our region and are dedicated to addressing them through our grant programs, partnerships, and educational programs. The following are just a few of the key metrics we use to measure our impact.

Since March 2020 over **\$6M** has been granted by the Foundation for pandemic emergency relief.

More than **2,250** students have graduated from our Youth in Philanthropy program since 1997.

Your Role

The needs in our community are significant. You can make a positive impact in many ways, and the Foundation for MetroWest is here as a resource for you. Whether it's as a donor, partner, or volunteer—join us in continuing to improve the quality of life in our MetroWest communities.
